

Fund Management System – End-to-End Test Scenarios

1. Setup (One-Time)

Create Users

Go to: **Settings → Users**

Name	Login	Group
Finance Officer	finance@nn.test	Finance User
GM Approver	gm@nn.test	GM Approver
MD Approver	md@nn.test	MD Approver
Fund Admin	admin@nn.test	Fund Administrator
Project Requester	requester@nn.test	Fund User

Configure Approvers

Go to: **Fund Management → Configuration → Fund Settings → New**

Field	Value
Configuration Name	Default
GM Approvers	GM Approver
MD Approvers	MD Approver

2. Fund Accounts

Go to: **Fund Management → Fund Operations → Fund Accounts → New**

Name	Account Code	Account Type
Main Bank Account	BANK-001	Bank
Petty Cash	CASH-001	Cash

3. Projects & Expense Heads

Projects

Go to: **Master Data → Projects → New**

Name	Code
Project A	PRJ-A
Project B	PRJ-B

Expense Heads

Go to: **Master Data → Expense Heads → New**

Name	Code	Category
Office Rent Q1	EXP-RENT	Office Rent
Marketing Campaign	EXP-MKT	Marketing Expenses

4. Incoming Funds

Login as Finance Officer

Go to: **Fund Operations → Incoming Funds → New**

Incoming Fund Entries

Reference	Fund Account	Date	Amount	Transaction Ref	Sender
INC-001	Main Bank Account	2026-01-05	1,000,000	TXN-2026-001	Head Office Transfer
INC-002	Petty Cash	2026-01-05	50,000	TXN-2026-002	Cash Deposit

Click **Confirm** for both records.

Duplicate Transaction Test

Reference	Fund Account	Date	Amount	Transaction Ref	Sender
INC-003	Main Bank Account	2026-01-06	100,000	TXN-2026-001	Test Duplicate

Click **Confirm**.

Expected Result: System should show an error due to duplicate Transaction Reference.

Validation

Expected Result:

Main Bank Account → Unassigned Balance = **1,000,000**

5. Allocations

Happy Path

Login as Requester

Go to: **Fund Operations → Allocations → New**

Request Number	Fund Account	Allocate To	Project	Amount	Purpose
ALLOC-001	Main Bank Account	Project	Project A	600,000	Q1 Operating Budget

Click **Submit**.

Expected Result:

- State = Submitted
- Account On Hold = 600,000

GM Approval

Login as **GM Approver**

Open **ALLOC-001** and click **Approve (GM)**.

Expected Result:

- State = GM Approved

MD Approval

Login as **MD Approver**

Open **ALLOC-001** and click **Approve (MD)**.

Expected Result:

- State = Approved

- Project A Total Allocated = 600,000
-

Negative Test: Insufficient Balance

Request Number	Allocate To	Project	Amount
ALLOC-002	Project	Project B	900,000

Click **Submit**.

Expected Result: Error because amount exceeds available unassigned balance.

Negative Test: MD Approval Before GM Approval

Request Number	Allocate To	Expense Head	Amount
ALLOC-003	Expense Head	Marketing Campaign	100,000

Submit as Requester.

Login as MD and try **Approve (MD)** before GM approval.

Expected Result: System should prevent approval.

Then: 1. GM Approves 2. MD Approves

Expected Result: Allocation approved successfully.

Negative Test: Rejection Flow

Request Number	Allocate To	Project	Amount
ALLOC-004	Project	Project A	200,000

Submit.

Login as GM and click **Reject**.

Expected Result:

- State = Rejected
 - Amount released back to Unassigned Balance
-

6. Requisitions

Create Requisition

Go to: **Spending** → **Requisitions** → **New**

Requisition Number	Requisition For	Project	Amount	Purpose	Required Date
REQ-001	Project	Project A	150,000	Vendor payment for office supplies	2026-02-01

Submit.

Approval Flow

1. GM Approves
2. MD Approves

Expected Result:

- State = Approved
- Project A Requisition Hold = 150,000

7. Bills

Bill 1

Go to: **Spending** → **Bills** → **New**

Bill Number	Requisition	Amount	Vendor	Bill Date
BILL-001	REQ-001	100,000	ABC Supplies Ltd.	2026-02-03

Click **Post**.

Expected Result: Remaining billable amount = 50,000

Negative Test: Exceed Billable Amount

Bill Number	Requisition	Amount	Vendor	Bill Date
BILL-002	REQ-001	60,000	XYZ Vendor	2026-02-04

Click **Post**.

Expected Result: System should show an error because remaining billable amount is only 50,000.

Bill 3

Bill Number	Requisition	Amount	Vendor	Bill Date
BILL-003	REQ-001	50,000	XYZ Vendor	2026-02-04

Click **Post**.

Expected Result: Remaining billable amount = 0

Bill Cancellation Test

Open **BILL-001** and click **Cancel**.

Expected Result: Requisition remaining billable amount increases by 100,000.

8. Transfers

Project-to-Project Transfer

Go to: **Fund Operations → Transfers → New**

Transfer Number	Transfer Type	Source Project	Destination Project	Amount	Reason
TRF-001	Project → Project	Project A	Project B	200,000	Reallocate to Project B for new scope

Submit.

Approval Flow

1. GM Approves
2. MD Approves

Expected Result: Project B allocated/available balance increases by 200,000.

Negative Test: Same Source and Destination

Transfer Number	Source Project	Destination Project	Amount
TRF-002	Project A	Project A	50,000

Submit.

Expected Result: System should show validation error because source and destination are the same.

9. Dashboard Verification

Go to: **Fund Management** → **Dashboard**

Verify

- Dashboard opens as a normal page.
 - Dashboard does not open in a popup window.
 - KPI values match transactions performed above.
 - Refresh button updates values correctly.
 - Refresh does not change URL.
 - Refresh does not change breadcrumb navigation.
-

10. Deletion Lock Test

Incoming Fund

Try deleting:

- INC-001 (Confirmed)

Expected Result: Deletion blocked.

Allocation

Try deleting:

- ALLOC-001 (Approved)

Expected Result: Deletion blocked.

Allowed Deletion States

Only the following states should be deletable:

- Draft
- Rejected
- Cancelled

Any Submitted, Approved, Posted, or Confirmed records must not be deletable.
